Accommodations	Assistive technology including large print. Wheelchair accessible. Public transportation accessible.
Disability Competencies	Approved Consultative Examiner for the State of Arizona Department of Disability Services Administration with ongoing Continuing Education in Disability Competency Evaluations. Previous provider for the Foundation for Blind Children. Competencies and ongoing Continuing Education in Health Psychology, with training in brain-related injury, illnesses, and

	<p>health conditions that impact cognitive, memory, emotional and attention-related functioning. Competency and ongoing continuing education in the impact on mental health impairment and health/disease impairment on functioning. Approved provider for Employer Assistance Programs including the impact of health and mental health functioning on job-related duties and performance.</p>
<p>Accreditations</p>	<p>Licensed Psychologist in Arizona with Neuropsychological Training; Licensed Professional Counselor in Arizona</p>
<p>Psychological Services (Psych)</p>	<p>Please select the type of Psychological Evaluations your company offers: Psychological Evaluation, Psychological with Vocational, Psychological with Educational, Psychological with Vocational and Educational</p> <p>If offered by your company, please select the following additional Psychological Services your company provides:</p>

Company Name	A-Z Neuropsychology, LLC
Db Company Name	
Company Address	5930 E Pima Street Suite 138 (Practice Location), Tucson, AZ 85712
First Name	Sarah
Last Name	Burger
Company Phone Number	(520) 419-5354
Company Email	sburger@a-zneuropsychology.com
Hours of Availability	<p>Traditional Office Hours: Monday-Friday, 8 am - 5 pm</p> <p>Dr. Burger also opens the office on evenings and weekends as needed for VR clients with unique scheduling needs.</p> <p>While Pima is the listed county of service, Dr. Burger is happy to see clients from throughout Arizona if they are willing to travel to our office location. She has also made arrangements to travel to other parts of Arizona for special cases, but this option requires special coordination with our office (e.g., to ensure there is a suitable testing location at the place where the client is to be seen, etc.) and could delay service receipt some (as Dr. Burger would need to arrange a time where there are no other</p>

	<p>patients being seen in the office that require her supervisory presence).</p> <p>Given its nature, this form indicates virtual services are not available. This refers specifically to psychological assessment services, which need to be completed in person. We can accommodate (on an as-needed basis) other service requests in a virtual format, with such service provision available across counties (e.g., consultation and therapy support services).</p>
In-Person Counties Served	Pima
Virtual Counties Served	Our company cannot provide virtual services in any of the counties above
Vendor Website	https://www.a-zneuropsychology.com
Services Provided	Psychological Services (Psych)
Accommodations	<p>Assessment services are routinely tailored to the service needs of the client, such that any potential clients (or their representatives) who have unique service needs are encouraged to call Dr. Burger directly prior to service in order to discuss specific options for accommodation. It is important to note that all of our standardized testing materials are in English, though. We have staff members who are Spanish-speaking, and we can arrange for translation services should any client representatives (e.g., family members) wish to participate by providing historical information</p>

	<p>of relevance to Dr. Burger at the time of assessment. The client to be assessed must be English-speaking, though. While such service requests are not common through Vocational Rehabilitation, it is worth noting also that Dr. Burger has experience assessing clients with neurodevelopmental disorders who are nonverbal. Assessments can also be adapted for those with vision impairment. We unfortunately do not have any ASL trained staff members at this time.</p>
<p>Disability Competencies</p>	<p>Dr. Burger has expertise assessing individuals across the lifespan (i.e., pediatric through older adult). She is trained first as a Clinical Psychologist, with expertise extending to all manner of psychological presenting conditions. Her added specialty in brain-behavior relationships (as a board certified Clinical Neuropsychologist who also holds subspecialty board certification in Pediatric Neuropsychology through ABPP) renders her uniquely poised to work also with individuals with neurodevelopmental conditions (including autism spectrum disorder) and with individuals who present with a history of neurological insult(s) or with chronic neurological conditions (e.g., traumatic brain injury, epilepsy, multiple sclerosis, etc.).</p>
<p>Accreditations</p>	<p>Dr. Burger is licensed to provide psychological services through the Arizona Board of Psychologist Examiners, and has been consistently since 2013. She is also board certified in Clinical Neuropsychology through</p>

	<p>the American Board of Professional Psychology (ABPP-CN), and has been since 2020. She achieved subspecialty board certification in Pediatric Neuropsychology through the American Board of Professional Psychology (ABPP-CN) in 2025.</p>
